The above order was conveyed to the President vide D. No 436-7 / L.757-98 dated 27-7-03.

As regards the query whether it is not desireable that the right to collect these tolls should be farmed out from the next year, the President reports, that ~~is not desireable, as~~ only a sum of Rs 100 or even less (if the forces of combination among the bidders and other factors come into play) is, at present expected to be realized annually, by farming out the right, & ~~considering~~ that the

average collections and savings during the past years, under the departmental agency have been Rs 1200 and 900 Rs respectively He therefore suggests that the esecisting departmental agency may be allowed to be continued till the expiry of the period for its retention, when a separate communication is promised

Submitted for orders as to whether the receipt of further communication may be awaited & the present reference ~~filed~~ recorded. Draft letter attached

Sir,

Adverting to Government Proceedings No. 440-41 / L. F. 57-98 Dated 11 July 1901, sanctioning the retention of the Toll establishment at Holenarsipur, for a further period of two years, I have the honor to submit herewith a statement shewing the realizations from the levy of tolls on the bridge in question for the five years from 1898-99 to 1902-03 (up to end of May)

A

It will be seen from the statement that the average collection of toll under the departmental agency has been nearly Rs 1200 per year and this sum far exceeds the charges of establishment maintained for the purpose and there is on the average an annual saving of about Rs 900 I beg to add that the outbreak of plague in some places in the District and a recrudescence in others also tended to affect the income from toll during 1901-1902 and 1902-03 which otherwise would have been far greater still.

2— Under these circumstances I request that you will be so good as to move Government to accord sanction to the retention

retention of the existing toll establishment for a further period of three years.

Sir,

With reference to Government Proceedings No. 486-7 / 2757-98 dated 27th July 1903, requesting to report whether it is not desirable that the right of collecting tolls should be farmed out from next year, I have the honor to state that the Amildar of the Holenarsipur Taluk estimates that a sum of Rs 1000/- may be realised annually by farming out the tolls—

right in question.

2 — I beg to state that, as already represented in my letter No. 594 dated 14th June 1903, the average collection during the last years under the departmental agency has been Rs. 12000/- and the averge savings Rs. 9000/- annually. The one consideration in favour of the System of farming out the collection is, that it will result in the savings of the charges of the Establishment maintained for the collection of tolls. But the System of farming out has its own dis-advantages and it is not uncommon that the forces of combination and other factors may reduce the bid in public auction to a sum lower than the realisation

at

at present.

3— Under the above circumstances, I beg to suggest that the existing Departmental agency may be allowed to continue till the expiry of the period for its retention sanctioned in the Government proceedings under reference, when I shall make another Communication on the subject.

I have the honour to be
